

Gregory Uku

Software Engineering student · Builder · Open to internships, freelance, collaboration

ukugregory@gmail.com · github.com/Dekryon · linkedin.com/in/gregory-uku-8b632724b · Peterborough, ON

I design and ship real-world software, web apps, and AI-powered tools. Comfortable across the stack — React + Tailwind on the front, Node + TypeScript + Anthropic / OpenAI APIs on the back, Supabase / Vercel for data and deploy. Multiple shipped products: ai-saas-factory, ordo-portal (AI drive-thru), Quality Auto Signatures, and this portfolio. I learn fast and ship what I learn.

EDUCATION

Trent University

Peterborough, ON · 2023 — Present

B.Sc. · Computer Science / Software Engineering

Relevant coursework · Data Management Systems, Software Design & Analysis, Computer Architecture, Web Development, Linear Algebra, Statistics.

SELECTED PROJECTS

AI SaaS Factory

github.com/Dekryon/ai-saas-factory · ai-saas-factory-ten.vercel.app

Next.js · TypeScript · Anthropic API · E2B · Supabase · Replicate

Autonomous AI agent mesh that turns one-sentence ideas into a shipped SaaS — orchestrator fans out to builder, marketing, and security agents in parallel; results land in a single review-and-deploy dashboard.

Ordo · AI Drive-Thru

github.com/Dekryon/drive-thru-ai · ordo-portal-liart.vercel.app

React · Node.js · OpenAI API · Deepgram · WebSockets · Tailwind

Voice-first drive-thru assistant: speech-to-intent pipeline with confidence-aware confirmation flow, operator override dashboard, and per-location menu config. Live pilot in Canada.

Quality Auto Signatures

qualityautosignatures.com

HTML · CSS · JavaScript · Netlify

Trust-first website for a Nigerian vehicle business — inventory grid, vehicle detail pages, WhatsApp + email contact flow, mobile-first layout, SEO and OG metadata. Shipped and in production.

This Portfolio

github.com/Dekryon/portfolio

React · Vite · Three.js (R3F) · Lenis · Framer Motion · Tailwind

Cinematic dev portfolio: real WebGL hero (wireframe sphere, ember orbit, bloom + chromatic aberration), Lenis smooth scroll, sticky-scroll project sections, Instrument Serif display type. WCAG 2.1 AA pass.

EXPERIENCE

Student Housing · Customer Service

Trent University · 2024 — Present

Frontline support for residents — owning the response loop on requests, troubleshooting, and escalations. Logged + routed without dropping balls.

Freelance · Laptop Repair & IT Help

Self-employed · 2022 — Present

Hands-on troubleshooting across Windows, macOS, and Linux. Hardware, software, malware, data recovery, machine migration. Wrote how-to notes so clients could self-serve later.

Choir Director

Community Choir · 2022 — Present

Lead weekly rehearsals for 15+ members, arrange pieces, assign parts, coordinate live event logistics end-to-end.

Sales Associate

Retail · 2023 — 2024

Customer-facing sales. Listened fast, asked the right questions, hit consistent targets through honest recommendations.

SKILLS

LANGUAGES

HTML, CSS, JavaScript, C#, TypeScript, Python, SQL

FRONTEND

React, Tailwind CSS, Framer Motion, Responsive design, UI design

BACKEND / DATA

Node.js, Supabase, REST APIs, JSON, Fetch / Axios

AI TOOLING

Anthropic SDK, OpenAI API, E2B, Replicate, AI-assisted dev

TOOLS

Git, GitHub, Vite, Netlify, Vercel, VS Code
